View reports of income per month
 - Recording { Content is recorded Non-stop, 24/7
BlinkoTV Pro records everything and admin cannot choose what is recorded or not
Recordings are split in 1 h files for management from back office
Default clean up: recorded files older than 7 days are deleted (optional, these may be hosted for the time you choose)
 - Video On Demand { Upload other media files NOT included (Monster Encoder available for adding VOD as an option)
Recorded shows used in VOD are taken from the recordings on the server
Administrator has to setup the start and end time of any recorded show manually
Membership subscription paid by regular users allow them to view all the VOD movies without having to pay extra fees (monthly membership fee for access to all VOD and TV channels included)
 - Schedule Controls { Administrator can setup manually the schedule for all the TV channels to be broadcasted
Schedule View is TV GUIDE style
Advertisement banners may be added to the schedule to highlight Specials Events (such as featured guest to appear on date and time etc.)
